

You can delete your account with GotSoccer yourself through the following link:

<http://home.gotsoccer.com/support.aspx?content=support§ion=Players&HelpID=55>

I have copy/pasted the info here as well:

Deleting Your Account

You can delete your account at any time by clicking on MY PROFILE and then DELETE ACCOUNT.

However it is important to note that you cannot delete an application. For example, if you've been added to an official state or league roster within the GotSoccer system by an official registrar, your information will remain on that roster even if you delete your account. This is important for rosters who need to track players to make certain they are not mistakenly dual rostered.
